SAMPLE: Circle charms.

The .PSD file has guidelines to help design your art. PLEASE follow the directions!

The next step is to put your art in the correct spots. Mind the borders!

SAMPLE: Circle Charms.

This is an example of the final image. Make sure you delete the circle guidelines, but keep the "L"s: these are registration lines, and are key to ensure proper placement of your art!

Be sure to c*hange the number to the total amount of pieces you want printed.*

BAD EXAMPLES OF FORMATTING:

AKA: please don't do this!

NO! Don't leave the borders on in the image. They'll be visible on the final product!

NO! Extend the art and background past the “border” lines. The white will be visible in the final product!

NO! Where are the “Registration” lines! And do you REALLY want 9,999 charms?!

** Actual charm colors may be off due to the differences between RGB monitor display and CYMK printing*

** Since art is printed on plastic, colors will be muted.*

** Please note that charms are be slightly curved; designs near the edges may be distorted.*

The "puffiness" of the charm may vary slightly between different orders
